KWEISOS HOUSE

KORU

“Kweisos” means the place of palms. This is derived from the Kipsigis word “Sosiyot”. The midribs of the local palms, Phoenix reclinata, are used for cleaning out the insides of calabashes, which are then used as containers for liquids.

Kweisos House which was built in 1914, is situated at Homa Lime in Koru. Access is by all-weather roads suitable for 2-WD vehicles, only the last 5 km. being on unsealed roads.

Enjoy home grown, home cooked traditional Farmhouse Cooking. The house has it's own kitchen, where our staff prepare your meals or picnics, if you would like to eat out on the farm or elsewhere. If you prefer to cater for yourself, you may bring your own food.

Walk or drive (4-w.d.) around the 3000 acre estate at your leisure and enjoy the superb bird watching opportunities, walking and fishing on small dams for tilapia and catfish. There is a guide available, who will take you to the Waterfall, Sticky Dam, Sundowner Hill or the Arboretum.

At Kweisos there is a heated swimming pool. At Greenhills there are two clay tennis courts, badminton, darts and table tennis for your use. Horse riding is also available, with some wonderful hacks around the estate.

Centrally located for golfers, the house is within one and a half hour's drive of three very different nine-hole courses in Kisumu, Kericho and Nandi Hills. The latter must be one of the most beautiful courses in the country.

Within a day's outing are the Kakamega Forest, renowned for it's rain forest type flora and fauna; the Kerio Valley, which offers spectacular scenery and dry country birding; and the little known Ruma National Park, home of the Roan Antelope and a host of other animals and birds.

We are ideally situated for those on the way to Uganda, being half way between Nairobi and Kampala and for those of you wishing to break journey on the way to the Mara, Mt. Elgon, the west shore of Lake Turkana and the islands on Lake Victoria, the farmhouse is an ideal stop off point.
